SUMMARY

Analytical and detail-oriented Data Analyst with a solid foundation in transforming raw data into actionable business insights. Proficient in Python, SQL, and Power BI, with a proven ability to build dynamic dashboards and optimize data workflows. Graduated from Canadian International College (CIC) and currently enhancing expertise through advanced professional data analysis programs.

EDUCATION

Bachelor's of Business technology , <i>Canadian International College (CIC)</i>	10/2018 – 06/2023
Major of Network	5th Settlement

SKILLS

Data Visualization: Power Bi | Advanced Excel(Pivot Tables , Vlookup, Power Query)

Analytical Techniques: Statistical Analysis | KPI Tracking | Performance Metrics | Trend Identification | Predictive Modeling

Programming & Databases: Python (Pandas, NumPy, Matplotlib, Seaborn) | SQL (SQL server/MySQL) | Data Cleaning

LANGUAGES

English — Conversational

Arabic — Native

COURSES

Data Analysis (In Progress) , <i>Eraasoft</i>	Nasr City
--	-----------

- Engineered End-to-End ETL Pipelines: Extracted, cleaned, and transformed complex datasets using SQL and Power Query, ensuring high data integrity and readiness for enterprise-level analysis.
- Architected Relational Data Models: Designed optimized star schemas and authored advanced DAX measures to support dynamic, multi-dimensional reporting and complex business logic.
- Developed Interactive BI Dashboards: Built comprehensive Power BI visualizations that translated raw metrics—such as retail sales and inventory data—into actionable, high-level insights for strategic decision-making.

PROJECTS

AdventureWorks — Sales & Customer Analytics,

2020 – 2022

Multi-page Power BI report · Star schema · 2020–2022 sales

A multinational bicycle & sports-accessory retailer dataset. Built a star schema from CSVs (Calendar, Customers, Products, Categories/Subcategories, Territories, Sales 2020–2022, Returns) and delivered a multi-page Power BI report with Executive Summary, Map view, Product Detail, Customer Detail, Decomposition Tree, and Key Influencers pages.

Maven Market — Retail Performance Dashboard,

1997 – 1998

Power BI report · Star schema · 1997–1998 transactions

A multinational grocery / retail chain dataset covering 1997–1998. Built a star schema from Calendar, Customers, Products, Stores, Regions, Transactions (1997 & 1998), and Returns — delivered as a Power BI report with Topline Performance and Geographic / Store-level pages.
